## Sirayash Plantix® Balikpapan Highlights and Functions

- When skin is under mental pressure and environmental stress like UV exposure, the metabolism will slow down and start aging. Consequently, we will lose collagen, elastin and then skin elasticity. Hyaluronic acid will go away too, leading to skin hydration loss, then wrinkles and sags.
- Plants also have the stem cells for cell regeneration. Sirayash Plantix® Balikpapan is effective in cell repair, anti-oxidation and cell proliferation improvement. The efficacies will prevent skin collagen loss and wrinkles, improve skin firmness, enhance skin barrier and support keratinocytes migration.
